

Central West Village Voice Newspaper

Central West Graphic Design worked alongside the local Central West Village Voice Newspaper from 2018 to 2024.

In these 6 years, we looked after advertising clients, fostering their relationships and updating or creating new advertisements for each edition.

Client liaison was a crucial role here.

Newspaper layout was also provided when necessary, and acting as a back-up to the editor a permanent offering.

Over the 6 years the newspaper morphed from the Village Voice (servicing west of the Blue Mountains to the Lithgow LGA) to the Central West Village Voice, spreading its circulation even further to the Bathurst region.
