

GROW LITHGOW INVESTOR FORUM

Central West Graphic Design had the pleasure in January and February 2024 of working closely with the Lithgow District Chamber of Commerce on the inaugural Grow Lithgow Investor Forum.

Since the early 1800s, the Lithgow area has been a catalyst of change, forever adapting to new circumstances, trends and fortunes.

Once again the area is embarking on a period of transition, from old traditions of mining and power generation to the adoption of new technologies and ideas, transforming old industrial sites into endless possibilities for future generations.

Our involvement was from the inception of the event, beginning with creating an identity. We designed a logo that was instantly symbiotic with the Chamber's actual logo to create some uniformity.

Other jobs involved designing conference room signage and a media wall to act as a backdrop for the presenters and photo opportunities.

Finally, we designed the Investor Forum booklet which outlined emerging opportunities in the area and included detailed information of the participating businesses.

As a proud local of the Lithgow LGA, it was an absolute honour to be part of this project and to work closely with Steve Ring, President of the Lithgow District Chamber of Commerce.

I sincerely hope that at least one of the delegates, some of whom were from overseas, loved what we have to offer and decide to invest in the amazing commercial and industrial opportunities that are emerging in our beautiful region.

Darren Clarke - Director- Planning Concierge, NSW Department of Planning, Housing and Infrastructure

Steve Ring - President of Lithgow District Chamber of Commerce.

Jamie Giokaris - Principal, LJ Hooker, Lithgow
