

Lithgow District Chamber of Commerce

Central West Graphic Design has worked with the Lithgow District Chamber of Commerce (LDCC) on a number of events, such as:

- Black Rose Business Awards, 2022 and 2023

Central West Graphic Design helped the LDCC with their marketing collateral and program production for the years 2022 and 2023. This is a prodigious event where local businesses are given the chance to celebrate with each other and display their services to the community. And also of course are given the chance to come out top in their particular business category.

- Procurement and Capabilities Seminar

The Lithgow Procurement and Capabilities Seminar was organised by the LDCC to bring together local businesses and services with large-scale networking opportunities through local industry and government. It was an information gathering seminar to help business grow and learn what help there is around them to expand.

- 2023 Lithgow Business & Lifestyle Expo

The 2023 Lithgow Business & Lifestyle Expo was organised by the LDCC to attract potential new residents to the area and also to enable local business to display their services and products to both locals and new residents alike.

Held at The Foundations, Portland, it was an incredible couple of days of positivity and togetherness which certainly raised the profile of all businesses involved.

Central West Graphic Design's contribution to this was:

- Event logo
- Event marketing collateral
- Event design packages offered to local businesses
- Production of marketing collateral for local businesses
